Announcement: Participation in Tokyo Project Gathering

We are happy to announce that T.O Entertainment Inc (CEO: Takeishi HONDA, Head office: Chiyodaku Tokyo) will present our film project "Rusty Red" in Tokyo Project Gathering(TPG) in International Film Festival in Tokyo 2007.

"TIFFCOM2007 - Asia Pacific Entertainment Market -" will be hold from 21st to 24th Oct 2007 as the 4th time and it's the only content market took place as the part of international Film Festivals in Japan.

TIFFCOM's project market "TPG (Tokyo Project Gathering)" will be the 3rd year and has been recognised as that high quality selection. TPG committee has selected only 38 project amongst about 100 proposals applied from 24 countries and each of the selected project will have an opportunity to have a presentation. This 3rd year's gathering has the entries by many well known directors/producers' projects such as Shinji Aoyama (Eureka) and Catherine Dussart (WHEN FATHER WAS AWAY ON BUSINESS) and has already got the strong attentions by international media and movie people.

T.O Entertainment Inc Project "Rusty Red" was fortunately selected to TPG after such a strict reviewing and judging. This is the animated film project by Italian talented animation director Francesco Filippi (story, script and direction) and it would be the magnificent sea battle adventure beyond the past and present. Filippi received the Grand prix of "Pitch me Italy!" award, which is the most prestige project competition, by this project.

T.O Entertainment Inc is one of the few Japanese companies which do the creative and sales management for creators and producing the contents both.

Our first international co-production movie "Room 1303" is now being released throughout the world and in Japan the theatrical release of the film is scheduled to start at the end of October. Our international co-production succeeding "Room 1303" is "Dandelion Winter (working title)" with the production scheduled to kick-off at the end of the year 2008.

In the present and future, we are keep developing the business as creators' agent and producing/issuing contents in not only Japanese market, also international market in abroad.
